

Dearest Carrie -

Just a note - I've been sick and  
its my own fault - I sort of eased off  
on the medicine - Yesterday I was so  
sick bloated etc - 12 bowel movement  
pain etc - Emory called Campbell at 7 P.M.  
I was so nauseated etc - and he  
came at quarter until 11 P.M. - Came  
I thought of you and how we waited  
for him - He came in looking so tired  
and drawn - I felt sorry - - My liver  
was swollen - fluid in my chest etc  
He gave me a shot and told me not  
to ease off on the medicine as the heart  
can't do the job - The red pills are for  
fluid and I must take the digitalis  
I threw up right after he left - got  
comfortable - awoke about 2 A.M. and

expelled fluid thru the kidneys  
about every hour all night - I'm better this  
A.M. and have lost 4 lbs. The float  
is gone - I'm to stay in bed a couple  
of days - but I'll never ease on the  
medicine again. I'll be ok and be  
ready to go on the trips with E  
but take the medicine -

much love  
June
